CHILD HAS NARROW ESCAPE FROM DEATH.

Sam Clay, Jr., four-year-old son of Mr. and Mrs. Sam Clay, of near Cane Ridge, narrowly escaped death Saturday morning, when he was knocked down by an auto at the corner of Main and Fifth streets.

The child had been standing on the sidewalk with an older brother, when he suddenly darted away in an attempt to cross the street. The child ran directly in the path of a big motor truck belonging to A. S. Best & Co., of Millersburg. The driver did his utmost to avoid striking the little fellow, and his machine skidded twenty feet after the emergency brakes had been applied. Immediately after the accident the driver picked the child up and carried him to the office of Drs. Daugherty & Orr, a short distance away. An examination disclosed a scalp wound and several bruises about the body, but no serious injury. The child was afterward taken to the home of his parents.

Bystanders who witnessed the accident said the driver of the truck was not to blame for the accident, and that the child's escape from death was little short of a miracle.

TWO DWELLINGS GO UP IN FLAMES.

A tenant house on the farm of Caywood & McClintock, on the Winchester pike, near the South Paris yards of the L. & N., was destroyed by fire, originating, it was stated, from a defective flue. The home was occupied by Mr. and Mrs. Ed. Igo and five children. Nothing was saved. There was no insurance on the property. Rooms were secured for the family in a Vine street home. The fire having left them destitute, a fund was quickly raised, Caywood & McClintock giving \$50, employees of the Louisville & Nashville yards donated \$90, and others raised \$80.

Sunday afternoon a two-story tenant house on the Henry S. Caywood farm, near North Middletown, occupied by Boone Williams and family, was burned to the ground. The origin of the fire was not learned. All the household effects, except a phonograph and a sewing machine, were lost in the flames.

The Williams family, father, mother and three children, were seated at the dinner table about one o'clock, when the fire was discovered. The roof was almost falling in when they made their escape. The fire, supposed to have originated from a defective flue, spread to surrounding buildings, and destroyed valuable pure-bred hogs, haystacks and trees. The loss was estimated at about \$2,000, with no insurance.

THANKSGIVING DAY IN THE YEAR 1920.

Next Thursday, November 25, will be Thanksgiving Day. This great feast day in America should be one of rejoicing and thanksgiving by all the people. This is the time when the whole nation gives thanks for the blessing of the year.

As a city we have much to be thankful for. Our public schools were never in better running condition, thanks to an able Board of Education and a thoroughly efficient and conscientious Superintendent and corps of teachers. To the membership of our churches large additions have been made, and between the ministers at this time a firmer bond of Christian brotherhood than ever before. The fraternal orders also have enjoyed unprecedented acquisitions to their membership. In the administration of our city government we have occasion for pride and gratitude. Efficiency, honesty and progressiveness have marked the conduct of our municipal servants. In manifold ways we have been blessed abundantly.

We have made of Thanksgiving a day of gratitude all untrammelled, a day the accomplishments of which are as merry as they should be. The reunion of friends and of families, the feasting, the laughter, even the legend of the ennobled American bird, all combine to make of the day something genuine and religiously beautiful. There is the strain of a timbre. Never was there a greater National holiday, never one more perfect in its spirit. It is in itself one of the things to be thankful for to the Giver of All Good, who has blessed so vast a land.

Let us be thankful that we live, in time of peace and prosperity. Let us be thankful that we have homes with husbands and wives and children to love and to love us. Let us be thankful for the comforts of life. Let us be thankful for work, strength and desire to do our work gladly. Let us cultivate a spirit of graciousness, of gentleness and gladness and wisdom that will make all about us thankful that we are alive.

AGAIN WE LEAD.

Watch Friday's issue of this paper. It will be of great interest to the shoe-buying public. Saturday, Nov. 27th is the day of the opening of our record breaking Price Lowering shoe sale.

Y. M. C. A. PROGRAM OF ACTIVITIES.

The program of activities conducted by the Bourbon County Y. M. C. A. has expanded during the past year until it now includes a very wide scope, and constitutes an all-around standard Y. M. C. A. program.

In the religious work department the Boys' Bible Class meeting Saturday morning and the Sunday afternoon meetings are already started. One additional Bible class for men and the county gospel team work are to be started during the coming year.

The Physical Department activities are in full swing. The Boys' Young Men's, Business Men's and Women's gymnasium classes are going. Coaching the Paris High School football and basketball teams is part of Physical Director Sheffield's work. Representative "Y" basketball and volleyball teams are being developed, which will advertise Paris greatly.

On New Year's Day a big program will be put on in the gymnasium. Then comes a series of events of National importance in which Y. M. C. A.'s all over the world participate. They are Senior Hexathlon Athletic Contest, last two weeks of February; Boys' Hexathlon Contest, last two weeks of March; Swimming and Life-Saving Pentathlon in April. A district High School athletic meet of eleven counties and the free swimming campaign in May. Last summer a large number took free swimming lessons and learned to swim.

In the Educational Department the reading room is more popular than ever before. New books and magazines are constantly being added to the list already on hand. Seven ex-service men were awarded free scholarships in various courses. New students are enrolled by the local "Y" in the United Y. M. C. A. schools. Six practical talks are to be given during the year.

The Economic Committee is planning to promote Thrift Week again this year, beginning Benjamin Franklin's birthday, January 17.

In county work the Y plans its largest development and expansion during the coming year in carrying its recreational and varied program to the schools and communities of the county. During the past year all boys over 10 years in the county have been invited to the Y building to participate in the activities. All camp and Older Boys' Conference privileges have been given to the boys of the county. In the promotion of the entire Y program no line is drawn between town and country. A boy is known by the company he keeps. The Y. M. C. A. endeavors to help men and boys develop helpful friendships. Boys will make friends of one kind or another. The Y helps boys to make the right kind of friends.

A large number of games and activities are maintained and promoted exclusively for the purpose of bringing the boys in touch with helpful associates. Cue rone, ring toss, goatis, ping pong and checkers are among the most popular social games. Among the big social events are, the New Year's reception, Father and Son Banquet, "Feeds" and other social numbers are put on during the year. The installing of two new bowling alleys during the coming year is the biggest thing the social committee is considering.

The dining room and equipment so widely patronized are provided without charge to the management of the dining room. The Boys' Work is where the Y. M. C. A. "shines" the most. The Bourbon County Y. M. C. A. has a big program of work for boys. Everything is free to boys under fifteen and a large number of boys of all ranks enjoy the swimming, gymnasium classes and games.

Plans are being made to start the Boys' Scout work again during the coming year.

The Hi-Y Club, the Older Boys' Conference, and the Christian Citizenship Training program are being pushed.

Camp Daniel Boone and the new Western Kentucky Camp near Mammoth Cave will be on the summer program for boys.

Of outstanding interest to the community is the Boys' Band, which is being organized. Lexington and Maysville both have them—so has Paris now.

Bourbon county citizens can justly be proud of their Y. M. C. A., for there is not a city in the State of similar size with so good an equipment and organization.

During the past year a large number of other civic organizations have used the building for various purposes. The Paris Commercial Club, the Federated Women's Clubs of Bourbon County, the Christian Endeavor Societies, the Red Cross, Paris Sunday School Committee, the Paris High School Alumni Association, the Women's Missionary Society of the Paris Christian Church, the American Legion, the Baptist Church, Colored School, the Knights of Columbus, are among the organizations using the building and equipment during the past year. No charge was made any of these organizations.

BOURBON CIRCUIT COURT

Upon convening Court, Friday, the criminal docket was taken up by Judge Robert L. Stout. The first case called was that of Florence Flowers, colored, charged with the murder of another colored woman, Mary Timmons, in Claysville. The evidence tending to show a clear case of self-defense, the jury returned a verdict of acquittal, and she was released from custody.

The jury in the case of Clell Richardson, colored, charged with forgery, was unable to agree, and was discharged. It was stated that the majority of the jury were in favor of an acquittal. The members of the petit jury were dismissed until Monday. No jury cases were heard Saturday. The time of the Court was taken up with hearing arguments of attorneys in the matter of payment of attorneys' fees in the cases of the George Alexander Bank directors and the depositors.

In the Circuit Court, Emma Jones, charged with receiving stolen property, received a sentence of one year in the Frankfort reformatory. Sylvester Anderson, colored, was tried on two charges of forgery, and received sentences of three and four years in the reformatory. George Williams, colored, alias "Taters," who was indicted by the last grand jury on the charge of setting up and operating a game of chance, namely, craps, and who was released on bail, failed to appear when his case was called for trial, and his bond was declared forfeited. In the case of McClelland Richardson, colored, who was accused by J. E. Farris of passing a forged check for \$15 at his restaurant near the L. & N. passenger station, the jury was unable to agree on a verdict, and was discharged.

Concluding arguments were heard by Judge Stout for additional allowance for attorneys' fees for the State Banking Commissioner in suits growing out of the failure of the George Alexander State Bank, of Paris. Arguments for the allowance were made by John J. Williams, of Paris, Eli Brown, Jr., of Louisville, and Judge John M. Lansing, of Newport. Arguments for some of the depositors who considered the allowance excessive, were made by attorneys Wade H. Whitley and Robert C. Talbot and E. M. Dickson. The Court took the matter under advisement, and will probably hand down his decision this week. The Board of Directors of the bank, it was said yesterday, must pay their attorneys' fees separate and apart from the fees involved in the above.

The cases of Charles O. Martin and Raymond Fryman, charged with malicious cutting and wounding Lyle Bayless, a Louisville merchant, near Paris some months ago, was called in Court yesterday morning. Owing to the illness of A. B. Thompson, of Lexington, attorney for Fryman, the latter's case was continued to the March term. Efforts were made by Martin's attorneys to secure a continuance of his case, on account of one of the attorneys, W. C. G. Hobbs, of Lexington, having only recently been employed in that capacity, and not having had sufficient time to become acquainted with it. The prosecution ETAOIN TAOINN. The motion was overruled by Judge Stout, and the case went to trial. The prosecution is represented by Commonwealth's Attorney Bradley, County Attorney D. D. Cline and W. H. Whitley, the defense by Chas. A. McMillan and W. C. G. Hobbs. The venire of fifty-two prospective jurors in the case was exhausted, eight being secured. The Sheriff was ordered to summon another special venire and have them to appear in Court at nine o'clock this morning. The Court then adjourned to that time, when the case will be resumed.

STOCKHOLDERS ORDERED TO RETURN OIL DIVIDENDS

The already scrambled condition of the oil stock industry in Paris was augmented this week by the receiving of a circular letter by each of the stockholders of the Bourbon Oil & Development Co., which was recently placed in the hands of a receiver, demanding the refunding of all dividends paid by the company.

The documents, which were signed by J. A. Edge, attorney for the receivers, states that on August 21, 1920, the District Court of the United States, for the Eastern District of Kentucky, appointed C. C. Bosworth, of Lexington, receiver for the Company, that an examination of the books of the company disclosed the fact that dividends were declared on the company's stock for the months of October, November and December, 1918, and January, February and March, 1920. The letter follows: "The Receiver has ascertained that the company earned no profits from which dividends could be paid. The Court has directed the Receiver to recover these dividends, and to sue for them if necessary. You are respectfully requested to remit the amount at once and avoid the cost of litigation." The stockholders, practically without a dissenting vote, have determined to resist this demand, and a meeting will be held during this week to organize for a fight against it.

COMMERCIAL CLUB FEATURES ON PROGRAM.

In addition to a thirty-minute program of entertainment and a lecture by Dr. J. J. Tigert, of the University of Kentucky, one feature of the Commercial Club meeting tonight will be talks by several local men. Among those who will speak are I. L. Price, Dr. W. C. Ussery, Prof. Lee Kirkpatrick and C. B. Harrison. Each of these men will open a discussion on a local subject and their talks will be confined to five minutes each.

The entertainment committee has completed preparations for the meeting, which will open at 7:30 o'clock, and to which the general public is invited. All indications point to a big crowd, as unusual interest is being shown in the meeting party from the fact that it will be the annual election of officers. John T. Collins and Catesby Spears withdrew their names Saturday from the ballot and those of E. H. Gorey and H. A. Power, who were next in order in the nominating primary, were substituted. The ballots, which all members will receive this morning, can be cast at the Commercial Club office from 1 to 6 p. m. and at the Y. M. C. A. from 6 to 8 p. m.

THE BOURBON GUN CLUB.

The Bourbon Gun Club held their regular shoot on last Friday afternoon at their club grounds in East Paris. A fair size crowd was out enjoying the sport. A stiff upper wind was blowing all afternoon, and the little clay targets were very hard to locate, as the following scores will show. Those breaking 20 or more out of each 25 shot at are:

Amos Turney, 24, 25.
H. Roseberry, 20, 20, 21, 24.
Sam Clay, 22, 23.
Catesby Spears, 22, 23.
J. M. Caldwell, 22.
Victor K. Dodge, 20, 21, 21.
Matt Lair, 21.
J. R. Pendleton, 21.
Wm. Ardery, 20.
Wm. Wornall, Jr., 20.
The Bourbon Gun Club will hold an all-day shoot to-day. Shooting starts at 9:00 a. m., and lasts all day. It will be known as a Thanksgiving shoot. Live turkeys will be contested for. A good many visiting shooters will be here, who, with our regular members, will make a large crowd on hand. So be sure to come out, as this will be the last shoot of this season.

METHODISTS KNOW NO LET UP

With the same inspiration, organization and determination with which they launched and carried to a successful conclusion their great Centenary Subscription drive, the Methodists are now keeping their people enthused over the collection of these pledges.
The Southern Methodists of Kentucky have appointed November 21-23, 1929, as Pay-Up-Week.
The Secretaries are being cheered by the assuring messages of full collections and the fine reports of the Treasurers, to pass on the good news, which, in turn, is arousing the church throughout the State.
The membership of each Methodist church felt the honor of a part in the subscription effort of the summer of 1929, and the outgrowth of that feeling and that success is the present expression of faith in the Centenary and the Forward Movement being inaugurated by local and connectional offices.

HOW FLEMING GRAND JURY REPORTED.

(Flemingsburg Times-Democrat)
The grand jury adjourned Friday after having been in session seven days and returning sixty-three indictments, most of them for violations of the liquor laws in one form or another, many of them for selling extracts which were being used for beverage and intoxicating liquors. A very significant passage appears in their report, which says: "We have examined more than 100 witnesses, several of whom appeared to be telling the truth."

\$50,000 BREACH - OF - PROMISE SUIT ENDED

The \$50,000 breach of promise suit of Rose Barlow, of Lexington, against Phelps Renick, of Winchester, was called Wednesday afternoon and was dismissed for want of prosecution. Plaintiff claimed defendant had promised to marry her and then had failed to carry out that promise. Mr. Renick has been prominent in the oil business in Winchester, Lexington and Louisville. He is a grandson of Mrs. Wm. H. Renick, of Paris, and nephew of B. M. Renick and Mrs. James Duncan Bell, of Paris.

Pet Had Various Names.

A neighbor, seeing the seven-year-old daughter of a geologist playing with a bedraggled but cherished kitten, asked what her pet was called. "Well," replied the precocious youngster, "that depends. Father calls her by a name from an intrusive magazine of doubtful genesis; mother refers to her as the basement complex; sister Helen insists that she is a typical example of secondary impoverishment; but I just call her my dear little kitty."

Clung to Coats of Arms.

George Washington used, on his seal and bookplate, the English arms that had been in his family for generations. When the Quakers among the early settlers, although they advocated simple, austere living, and abandoned plumes for their hats and lace for coat sleeves, would have considered it a renunciation of an inherited right, like relinquishing their family names, to give up the coats of arms granted to their ancestors.

DEED OF HEROES IS PERPETUATED

Monument Erected in Montreal in Honor of "Thermopylae of Canada."

EXPLOIT LIKE FICTION TALE

Adam Daulac With Sixteen Companions Face Overwhelming Force of Indians in Attempt to Save Montreal.

Montreal.—The magnificent heroism of Adam Daulac, or Dollard, Sieur des Ormeaux, and his 16 brave companions at the Long Sault—which has been called "The Thermopylae of Canada"—has been perpetuated in granite and bronze, and a handsome monument added to the public treasures of the city of Montreal. The monument, the work of Alfred Laliberté, stands in Lafontaine park. Unveiling ceremonies took place recently.

The exploit which has made the name of Dollard immortal in Canadian history, occurred in May, 1660. Dollard at that time was commandant of the garrison at Montreal or Ville Marie. Paul de Chomedey, Sieur de Maisonneuve, who had founded the city in 1642, was governor. For some months the colony had been in danger of extinction at the hands of the Iroquois. Dollard, who had come to the colony three years before, at the age of twenty-two, asked leave of Maisonneuve to lead a party of Volunteers against the Iroquois. It was known that hundreds of Indian warriors lay at the mouth of the Richelieu river, below Montreal, while hundreds more were on the Ottawa river, above Montreal. Three Rivers and Quebec were to be wiped out. Dollard's plan was to meet the Indian warriors on their way down the Ottawa and give battle, regardless of numbers.

Sixteen men joined him in his desperate enterprise. All took an oath to accept no quarter, made their wills, and attended a religious service. They proceeded up the St. Lawrence, entered the Ottawa, at the head of the Island of Montreal—where the swift currents baffled them for a week—crossed the Lake of Two Mountains, and passed Carillon, 50 miles above Montreal.

At the Long Sault. Finally they reached the foot of a swirling torrent of waters, barring the way. The Indian warriors had to pass that way and that was the place to meet them. Dollard and his men took possession of a palisade fort near the river's edge, built by an Algonquin war party some months before. They were soon joined by 40 friendly Hurons and four Algonquins.

In a day or two the Iroquois made their appearance. Their advance guard, while making an attempt to land, was fired upon. Those who escaped reported to the main body, 200 strong, about the Sault. The Indians quickly descended the rapids in their war canoes and fell to the attack.

They rushed upon the little garrison, but were driven back. Capturing the birch canoes of the Frenchmen and their Indian companions, they set them ablaze and attempted to do the same with the palisade. A withering fire greeted them and they retired in defeat. During the next attack, immediately after, one of their great chiefs fell. For five days and nights the struggle continued. The defenders were without water and were unable to swallow the crushed Indian corn they had for food. Their Indian allies deserted them, with the exception of four Algonquins and one Huron.

On the fifth day reinforcements to the number of 500 reached the Iroquois, and a savage assault was made on the palisade. The French were on the alert, and the Indians were once more compelled to retire. Other attacks were made in the three following days, but with no success.

Last Grand Assault. The Iroquois then determined upon a general assault. Great shields of wood, four or five feet high, were made, and under the cover of these the warriors came on. In the face of a heavy fire they succeeded in reaching the palisade, crouching low, and attempted to cut their way in with hatchets.

At this point Dollard crammed a big musketoon with powder, and plugged up the muzzle. Lighting the fuse, he tried to throw it among the Iroquois without, but it struck the top of the palisade, fell back among the defenders and exploded with disastrous effect. Pressing the assault at this moment of confusion, the Iroquois thrust their firearms into the loopholes and fired. A breach was made in the fort and Dollard and his men sprang forward to the defense. Other breaches were made, and Dollard met a soldier's fate. His followers threw themselves upon their assailants, but the end had come at last.

The 17 young heroes from Montreal gave their lives, but not in vain, for the Iroquois abandoned their enterprise, having had more than enough of battle, and Montreal, Three Rivers and Quebec were saved.

This Marriage Not a Failure.

Lawrenceburg, Ind.—Though all the original guests were dead, the bride, Mrs. Nicholas H. Probst, and her bridesmaid, Mrs. Katherine Haag, stood together again when the marriage ceremony between Nicholas Probst and his wife was repeated after 50 years. They were remarried in the same old church, and the old-fashioned wedding dinner was duplicated.

APPEALS FOR NEAR-EAST RELIEF.

A letter presenting an earnest appeal for the Near East Relief has been sent out to church and Sunday School workers in the Kentucky Conference of the Methodist Church by Mr. Dennis V. Snapp, of Paris, Field Secretary of Sunday Schools in this territory.

Near East Relief is incorporated by the Congress of the United States for relief of the suffering until some responsible government is established. It is the voice of the American people responding to the call of outraged humanity.

Five hundred and thirty-eight American men and women are administering this relief in the Near East. While they themselves are in peril of death from war and disease, they urge us in the name of humanity to aid until responsible governments take over the care of the children.

THE LETTER:
Office of Field Secretary
Kentucky Conference Sunday School Board, M. E. Church, South.
PARIS, KY., Nov. 19, 1920.

My Dear Co-Worker:
It is my purpose to bring to your attention a matter which should be presented immediately to your Sunday School and church. Recognizing the continued need, the General Sunday School Board of our church again urges action of Sunday Schools to take offerings for the Near East Relief.

Calvary is not a story of two thousand years ago. It has been repeated a thousand times in Armenia where the merciless hand of the Turk has defiled everything within his touch. For 1,300 years the people of the Near East have been fighting the battle of Christianity. They have been burned at the stake, flayed alive and crucified but have not renounced their faith. They have been exiled in the wilderness and the road from the Caspian Sea to the Persian Gulf is strewn with the skulls of their saints.

The Turkish sword has taken half of the oldest Christian nation and hunger is threatening the other half. Shall we permit them to perish of hunger this winter and allow the Turk to rejoice that he has accomplished the purpose of the ages? Christmas morn in America will be vastly different from Armenia. Far away across the ocean in the Bible Lands made sacred by the footsteps of our Saviour, other little children awake on the same Christmas morn to find—what?

Gifts? No—not even stockings to put them in if there were gifts—not even stockings to wear! The fireplace—if there be one—is cold and dreary. Down its bleak and cheerless chimney no jolly Santa Claus has ever ventured. His reindeer do not know the road. And yet if Santa Claus were to come that way, what do you suppose would be the dearest treasure in his pack? Candy? Fancy handkerchiefs, Golden trinkets? No!

Bread; only bread—that to thousands of little starving tots, would be the greatest boon of all on Christmas morn.

It is not so much what will happen to Armenia but what will happen to America if she fails to respond to the cry of these Christian peoples. Armenia is perilously near losing her population but America is dangerously near losing her soul unless she steps forward and succors these down-trodden people.

Five dollars a month will feed a child; ten dollars a month will feed and clothe it and fifteen dollars a month feed, clothe and educate it. How much can you undertake? Make check payable to Dr. E. B. Chappell, 810 Broadway, Nashville, Tenn.

Trusting that this urgent appeal will claim your immediate attention and that your Sunday School will make a substantial cash offering, I am,

Sincerely yours,
DENNIS V. SNAPP.

The Telephone—An Individual Service

The current for your electric light comes from the same wires that serve many others besides you; water or gas can be furnished you from the same mains that also supply many other customers—

But the telephone, with few exceptions, is an individual service—

The telephone company must furnish and maintain a separate circuit all the way from the telephone exchange to the interior of your home or place of business; must furnish and maintain your telephone instrument and wiring; must maintain a special, separate investment for you alone!

Remember that, Mr. Subscriber, when you consider the cost of installing and maintaining your telephone—and the rate that must be charged you to make that individual service possible.

THANKSGIVING PROCLAMATION

FRANKFORT, KY., Nov. 19.—Calling on the people of the State to join in prayers of thanksgiving and gratitude, Governor Edwin P. Morrow issued the annual Thanksgiving proclamation from the executive office in Frankfort, Thursday. The proclamation follows:

"Our Father in Heaven has, during the past year, blessed us, his children, with peace within our borders; a bountiful yield from the soil of Mother Earth; the preservation of our liberties, regulated by law, and the maintenance of our free public institutions. From our forefathers, through all the drifted years of our national history, we have at this season set apart a time of thanksgiving and prayer, known as 'Thanksgiving Day,' which comes at the end of the harvest-home.

"The fruitage of spring and summer has been gathered to assure us against the wants and rigor of winter. 'Thanksgiving Day' hallowed by the memory of our Pilgrim Fathers; sanctified by years of observation; touching every heart with the tender memories of home and childhood and the recollections of the loved lost. It is the day the wanderer returns home; when family ties, long broken, are reunited; when hungry arms are filled with loved ones.

"Therefore, in obedience to the custom of our fathers and in grateful recognition of the watchful kindness of our Heavenly Father, I do by the power vested in me proclaim Thursday, November 26, 1920, as a day of

thanksgiving and prayer; and I call upon the people of Kentucky to suspend their daily business; to cease from their toil, and around the fire-side of home and the altars of their land to join together in prayers of thankfulness and gratitude to Him, who holds His children in the hollow of His hand, and who continues to bless them with His loving kindness."

KENTUCKIAN TIPPED AS NEW C. & O. HEAD.

Garrett B. Wall, a native Kentuckian, has been "tipped" as the new president of the Chesapeake and Ohio Railway Company to succeed George W. Stevens, who died recently. The board of directors of the company will meet in New York sometime this week for the purpose of selecting an executive head, and it is thought that Mr. Wall, who is vice-president in charge of executive affairs, will be chosen. Mr. Wall is said to be largely responsible for the improvements made by the road in the coal regions of the Big Sandy valley.

—Mr. Martin M. Bowles, aged 80, died Sunday at his home on Trigg avenue at 3:50 o'clock, after a lingering illness. He had been in failing health for more than a year of general debility. He has been a sufferer from rheumatism for about twenty years. Mr. Bowles was a native of Nicholas county, and was one of a family of seven children, being the only son of Mr. and Mrs. Hugh Bowles. His six sisters preceded him to the grave. He served four years in the Civil War in the Ninth Kentucky Cavalry, under Col. W. C. P. Breckinridge. After the war he located on a farm near Millersburg, which occupation he followed until a few years ago, when he retired, purchasing the home in which he died. Some time after the war, he was united in marriage to Miss Lucretia Crump. Three children were born to them, all sons, one dying in infancy. He is survived by his widow, one son, Mr. T. E. Bowles and five grandchildren, and several nieces and nephews. He was a congenial man, with a great many friends, always full of wit and humor. He had a pleasant word, and a smile for everyone. GRAFT THERE ALSO

Investigation in Argentina Discloses Dishonesty.

Government Claims That 5,500,000 Pesos Were "Unduly" Paid for "Palace of Gold."

Buenos Aires.—Argentina has been having a graft investigation, as a result of which it has been found that 5,500,000 pesos have been "unduly" disbursed by former government officials who directed payments to contractors for building the capitol here. The present government has announced its intention of bringing suits to recover the money improperly paid.

The building, a magnificent structure of classic architecture, marble facings and broad sweeps of marble steps not unlike the capitol at Washington, is insistently called in the newspapers "El Palacio de Oro," Spanish for "The Palace of Gold." It was begun in 1897, and was originally to have cost 10,000,000 pesos. It is not yet entirely finished and has cost 27,000,000 pesos.

Recently a committee of the national accountancy department completed an investigation of the expenditure of the moneys paid for construction of the building, and reported that 5,500,000 pesos had been "unduly" disbursed.

Buenos Aires newspapers told, years ago, of wagon loads of building material that went in the front door of the structure, soon after came out the back door and then disappeared. Charges were made that marble was paid for, but concrete used for part of the construction, and other accusations of graft were aired. It was then that the newspapers began to call it "The Palace of Gold."

POLICE HERO DECORATED

Policeman Charles L. Mangels of the San Francisco police force was recently decorated by four-year-old Estelle McDaniel for the rescue of little Vera Mihailova after she had fallen from a transport just leaving the dock for a voyage to Petrograd with Russian refugee children some months ago.

Prussia's Contributions to William Since He Fled From Germany Are Disclosed.

London.—More than 62,000,000 Dutch florins (about \$25,000,000 at the normal rate of exchange) have been paid to former Emperor William of Germany as king of Prussia by the Prussian government since he fled to Holland, according to an official statement made to the legal committee of the Prussian assembly, says a dispatch from Berlin.

The former emperor also received money to pay for the building of his house at Doorn, while various sums were paid to Count Bentinck, owner of Bentinck castle, where the one-time monarch first made his residence in Holland.

The dispatch adds that full allowances also have been made to the former royal princes.

"Oliver Twist's" Gruel Boiler Offered Museum

London.—With other Dickens relics, the iron boiler in which, according to "Oliver Twist," watery gruel was boiled for young Oliver and other inmates of St. George's workhouse, Borough, S. E., has been offered to the South-west museum. St. George's workhouse, in the yard of which stood a public house kept by the mother of the highwayman Jack Sheppard, has been closed.

Ice-Bound for Months.

Nome, Alaska.—Capt. Joe Bernard and A. Anderson have arrived here with their vessel, the Teddy Bear, after four years spent in the Arctic, during 25 months of which time they were ice-bound at Taylor Island in Victoria strait, near King William Land. Captain Bernard brought with him a native of the land of Stefansson's blonde Eskimos, but declared that after two years' search of that district he was unable to locate any of the blonde natives. He found old houses evidently of great age on East Carnation gulf, he said, and brought back pieces of old ivory and other curios uncovered in the ruins.

FORMER BLUEGRASS LEAGUE UMPIRE DEAD.

Louis Knapp, aged thirty-nine, veteran American Association umpire, died at his home in Louisville, Wednesday night, after an illness of a short time. Knapp was well-known in Paris, where he officiated as umpire in the Bluegrass League. He was a general favorite here, on account of his genial good-nature, and ready wit. He had a ready and sharp answer for the gibes and jeers of the overzealous baseball "fan," and was a fellow of infinite patience. The most hardened baseball "rooter" always had a good word for him, and never failed to acknowledge his invulnerability to the taunts that were hurled at him. He was a man of excellent judgment, thoroughly conversant with all the byplays and bylaws of baseball, and his honesty was never questioned. He was very popular with Paris "fans."

Funeral services were held at the home in Louisville, Saturday afternoon at two o'clock. The burial followed on the family lot in Cave Hill Cemetery. He is survived by his widow, Mrs. Edna Knapp, two daughters, Misses Edna and Thelma Knapp, his parents, Mr. and Mrs. Fred Knapp, and one brother, Chas. Knapp.

Following years of agitation, Oxford University has finally decided to grant degrees to women students.

EDITORIAL FLINGS OF THIS, THAT 'EN 'TOTHER

Dr. Stucky, of Lexington, is right, of course, in saying that is children should eat less candy they would have fewer colds, but taking candy from children is not the easiest thing in the world.

This drop in prices is going to be mighty hard on some of the Paris male fashion-plates. With \$15 silk shirts gone they may be reduced to the extremity of buying three \$5.00 shirts and throwing two of them away.

"Hard times knocking at the door," is the general answer to "What is it?" But then, a Paris philosopher, whom nothing much worries, says "Why not call it opportunity, with the biggest, brightest load of gifts ever offered mankind. Be optimistic, folks."

Present indications point toward a marked revival of bicycling next spring. Clubs are being organized in many cities in the Bluegrass, and many of the old-time "bike enthusiasts" are resurrecting their old wheels and putting them into shape again. After all, bicycling is good exercise and one of the cheapest means of transportation ever devised.

These are days of cold, biting winds; of sunless skies (sometimes) and leaden clouds; of bare trees and naked woodlands; of swollen streams, slush on the streets and slush in the gutters. They are the aftermath days of the golden summer and the full moon of autumn in all her gorgeous glory. There is beauty in every hour. Go forth and see it and learn to love the changing seasons. (P. S.—This was written in a warm, comfortable office, on a bright, sunny day.)

It seems to be a close race between some of the "coons" in the gallery and some of the "yaps" on the lower floor at the Grand Opera House as to which can make the most noise, and show their ignorance. And sometimes we are constrained to think that the colored people are a little bit more courteous and less deserving of censure than some of those on the lower floor who are supposed to be of the superior race. Go to the Grand any night, and make a study of this yourself.

LOOK WHAT THE WEATHER MAN DID!

It has been frequently remarked that Kentucky could show up more varieties of weather in a little time than any other State in the Union. This assertion is fully borne out by the weather served us in the past three days. After having been twelve degrees out of the ordinary Saturday and Sunday, the weather went back to "normality" yesterday morning, when a cold rain began to fall, causing a sharp fall in the temperature. Overcast weather filled the streets Saturday and Sunday, but yesterday those coats were resumed and the gas or coal fire has a very cheerful appearance.

INJURED IN AUTO ACCIDENT

Mrs. Walter Williams, a colored woman, residing at Little Rock, this county, was struck and run over by an automobile on Main street Saturday afternoon, sustaining a number of cuts and bruises about the face and body. The driver of the car came to her assistance, and directed her to go to the office of Drs. Daugherty & Orr, and he would return and make arrangements for having her injuries attended to. He failed to show up. The woman was given necessary medical attention, and sent to her home. Her daughter, who was with her, secured the number of the machine, and reported the accident to the police.

H. A. Power, of the Power Grocery Co., and Edward H. Gorey, of the L. & N., were placed on the Paris Commercial Club ballot Saturday as nominees for president of that organization. The Election Committee found it necessary to revise the ballot following the withdrawal of John T. Collins and Catesby Spears, who received the highest number of votes for president in the nominating primary. Both withdrew on the ground that they would not have sufficient time aside from their business interests to devote to the office.

Mr. Gorey was formerly on the ballot for vice-president, together with M. J. Lavin and Frank P. Lowry. The name of M. Peale Collier has been substituted for Mr. Gorey for that office. The election will be held to-day, with the polls open from one to eight p. m. The result of the election will be announced at the annual meeting at the Y. M. C. A. to-night.

KENTUCKY CROP REPORT

Kentucky's 1920 tobacco crop is estimated at 420,750,000 pounds, corn 96,624,000 bushels, and potatoes 6,732,000 bushels in the November crop report for Kentucky issued at Louisville and Frankfort by the U. S. Bureau of Crop Estimates in co-operation with State Commissioner of Agriculture W. C. Hanna. Other crops reported for Kentucky are: Sweet potatoes 1,680,000 bushels, apples 5,780,000, pears 208,000 bushels, clover seed 52,500 bushels, and sorghum sirup 2,888,000 gallons. Last year's Kentucky production of these crops was: Tobacco 456,500,000 pounds, corn 82,500,000 bushels, potatoes 5,040,000 bushels, apples 1,480,000 bushels, pears 128,000 bushels, clover seed 38,000 bushels, and sorghum sirup 2,542,000 gallons.

The decrease in tobacco production in Kentucky from 1919 is due to decreased acreage in Western Kentucky, which was not fully offset by the increased burley acreage. The damage by rust and "wildfire" also helped slightly to reduce the average yield per acre. Quality of tobacco in Kentucky is reported as 80 per cent compared to 81 per cent last year. The United States tobacco crop this season is estimated at 1,476,444,000 pounds compared to 1,389,458,000 pounds last year.

It is estimated that approximately 5 per cent of Kentucky's acreage of corn was put into silos this season, the average yield per acre being about 7 tons. There was comparatively little frost damage to corn in this State, but some is now being reported as chary and not well matured. The average yield per acre this year in Kentucky is 30 1/2 bushels, compared to 25 bushels last year and a 10-year average of 27 1/2 bushels.

NASTY COLDS ARE RELIEVED AT ONCE

"Pape's Cold Compound" Then Breaks Up a Cold in a Few Hours

Don't stay stuffed-up! Quit blowing and snuffing. A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripe misery.

The very first dose opens up your clogged-up nostrils and the air passages of the head; stop nose running; relieves the headache, dullness, feverishness, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine. Insist upon Pape's. (adv)

The Yellow Sea.

The Yellow sea is an arm of the Pacific ocean, on the northeast coast of China. Its length is about 620 miles; its greatest breadth about 400 miles. It is very shallow, and obtains its name from the lemon-yellow color of its water near the land, caused by mud suspended in the water from the inflow of the river Hoangho and Yangtze-kiang.

OUT O' ORDER STOMACHS

Indigestion, Acidity, Sourness and Gases ended with "Pape's Diapepsin"

SHE HAD TO SEND FOR HER MOTHER

Illinois Woman Was On Verge of Nervous Prostration—Tanlac Restores Health

"I have improved so much since taking Tanlac that my friends hardly know me," said Mrs. Harry Hatfield, 455 Day Street, Galesburg, Ill.

"My health had been dreadful for three years," continued Mrs. Hatfield, "and finally I had to send for my mother to come from Missouri and stay with me, because I was on the verge of nervous prostration. The least noise made me almost frantic and my stomach was in such bad shape that no matter how little I ate I would suffer terribly for hours with gas and cramps. My head ached nearly all the time and a good night's sleep was impossible. My kidneys were in bad condition, too, and my back ached so bad I could hardly stand it. I got to where I never knew what a well day meant and was getting worse all the time, and, although I took all kinds of medicines, nothing did me any good and I became very blue and despondent for I could do none of my housework at all."

"My next-door neighbor had been so much benefited by Tanlac that she insisted on my taking it and I began improving almost from the first. My nerves calmed down, my appetite picked up and what I ate agreed with me. Now I am like a different person and haven't a trouble of any kind. I am so thankful for what Tanlac has done for me that I just talk about it all the time."

Tanlac is sold in Paris at the People's Pharmacy. (adv)

KENTUCKY LEADS IN AUTO LICENSES ISSUED

The number of automobiles licensed in the United States increased more than twenty-five per cent, during 1919. At the end of 1918 there were in operation 6,023,805 cars, while on December 31, 1919, there were 7,555,269.

The exact average increase in percentage for the twelve months was 26.07. The actual growth in number of cars was 1,531,464.

Kentucky gained more than the average of all States, the total being 26.8 per cent. In 1918 the Blue Grass State registered 65,884, and in 1919 a total of 90,008. It is predicted that by the end of this year Kentucky's total will be well toward the 135,000 mark. New York now has the most cars with 600,000, while Nevada has the smallest number with 6,305, which is about the number of commercial cars that the city of Louisville registers alone. In percentage Washington gained the most with 48.1 per cent increase, North Dakota bringing up the rear with a 1.7 per cent gain.

IT'S SURPRISING

That So Many Paris People Fail To

Recognize Kidney Weakness.

Are you a bad back victim? Suffer twinges; headaches, dizzy spells? Go to bed tired—get up tired? It's surprising how few suspect the kidneys.

It's surprising how few know what to do. Kidney trouble needs kidney treatment. Doan's Kidney Pills are for the kidneys only.

Have convinced Paris people of their merit. Here's a Paris case; Paris testimony.

Kidney sufferers hereabouts should read it.

Mrs. A. L. Burley, 329 Eighth Street, says: "I have used Doan's Kidney Pills, getting them from the Ardery Drug Co., and from the benefit I received, I certainly think they are a good, reliable kidney remedy. Whenever my kidneys have acted irregularly or my back has been weak and lame, I have used a box or so of Doan's Kidney Pills. They have always relieved me of the complaint."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Burley had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (adv.)

WANT A NEW ESTIMATE

An effort is being made in the Bluegrass region to have the Government crop estimate of tobacco revised downward. It is claimed the estimate recently sent out is too high by some million pounds, and the estimate naturally tends to reduce the price.

While Bourbon county has a fine crop of tobacco it will be a light one, as stated some time ago. The leaf is light and will not weigh up to the estimate usually put on it. It may be a good thing after all that the opening of the local market was postponed until the first of January. By that time a better estimate can be had of the size of the crop than if the market had opened the first of December. These statements are approved by a large majority of the tobacco growers and handlers of Bourbon county.

STATE ELECTORS WILL VOTE AS UNIT.

FRANKFORT, KY., Nov. 19. — A solid Democratic representation from Kentucky in the Electoral College is in prospect unless errors are found in the official returns or Guy Patterson, the Eleventh District Democratic electoral candidate, runs behind Marion Taylor, first Democratic candidate for elector from the State-at-large, in the fourteen counties not yet reported, much further than he has in the 106 counties reported to Fred A. Vaughan, Secretary of State.

With Davies and McLean of the Second; Logan of the Third; Larue, Marion and Meads of the Fourth; Powell of the Seventh; Madison, Mercer and Shelby of the Third; Elliott and Fleming of the Ninth, and Clay and Wayne of the Eleventh yet to be heard from, W. J. Deboe, first electoral candidate on the Republican ticket leads Mr. Taylor by 2,244 and Mr. Patterson, last on the Democratic ticket, 5,465. Mr. Patterson is 3,424 short of Mr. Taylor's vote. Mr. Taylor probably will have a majority of not less than 8,400 in those fourteen counties, which give him a majority of 6,156 in the State.

Mr. Patterson's vote, by reason of errors in stamping ballots, has run approximately fifty-one to the county behind Mr. Taylor's, and this average, if maintained in the remaining fourteen counties, would leave Mr. Patterson about 4,000 votes behind Mr. Taylor, which would insure him a margin of 2,000 majority over W. J. Deboe.

The other candidates for electors would go in by about the same majority as Mr. Patterson or a little more.

MISTLETOE SAID TO BE ABUNDANT HERE.

There is said to be an abundance of mistletoe in Bourbon county this year, it being in evidence in profusion at a number of places. The fact furnishes delight for many who contemplate its use during the coming holidays. Some are said to be arranging for shipping away a large quantity for holiday use, the special variety grown in this county being more attractive and longer-lived than that from other localities.

In a number of places in the county mistletoe is said to have been found for the first time. The gathering will not take place as yet, it being said that more cold weather is conducive to a longer life for the branches.
